

RANDEX

Factory Finished Labels

Randex produce a variety of factory finished labels, in a range of sizes. The most popular labels are 4" and 8", Convert-A-Labels and Convert-A-Tabs. All of the factory finished labels produced will have an adhesive that bonds stronger with age, which makes it easy to apply to new and existing folders. Factory finished labels are also overlaminated which makes them more durable and virtually tear-proof. The laminate also makes them more resistant to the effects of light, air, moisture and daily wear and tear Convert-A-Label

Convert-A-Tab

Convert-A-Tabs are very similar to Convert-A-Labels and are available in the same sizes and styles. The difference between the two is that Convert-A-Tabs have extended sides, which are designed to apply the strip label to folders that do not have an end tab or top tab. Convert-A-Tabs, therefore, contain the tab and the label in one, and are an ideal way to convert existing folders to end or top tab folders. Not only do you convert to a colour coded system, but you avoid the cost of replacing folders.

Have the same benefits as Convert-A-Labels, plus:

No need to replace non-tabbed folders. Convert-A-Tabs included the tab and strip label in one easy to apply
