multiple applications

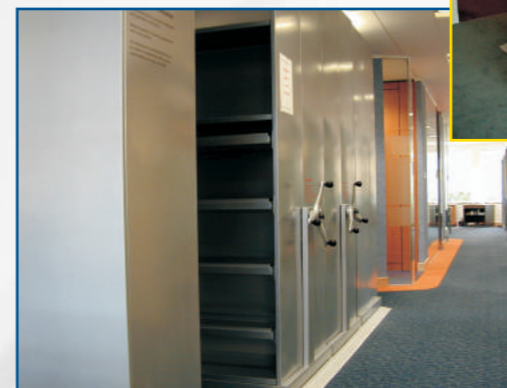

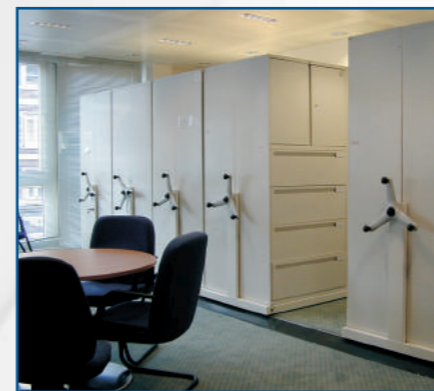

It's a fact of life that all types of business will outgrow their available space at some time.

Why wait for the inevitable problem to arise?

The cost of moving or extending premises can easily be avoided by investing in a "Mobile Storage System."

features

- Choice of colours
- Protection & security
- Safety anti-tip devices

- Computer design & testing
- Technical analysis including load data
- Modular design for easy relocation, addition & alteration
- Projects designed specifically to solve your problems
- Modular free standing office systems
- Minimal noise and dust during installation
- Easy to relocate
